DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed. The following is an examiner's statement of reasons for allowance: The Applicant's invention is directed to a digital signal processing apparatus that has a common bus connecting several blocks together and further having the ability to add/change blocks. The Appellant's arguments regarding the U.S. Patent 5,977,997 to Vainsencher in the reference not having a common bus and the enabling of blocks to be added/changed is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
